Equipment type/SKU	Broadband service type	Price (including GST)
eero 6+ router - R010011	Fibre	\$120.00 (plus postage and handling)

3.2 There is a postage and handling charge of \$14.95 per package for Equipment that does not include postage and handling in the price.

3.3 If you purchase more than one eero router at the same time (or if you receive an eero router as your free Equipment and purchase one or more eero routers at the same time), Mercury will endeavour to send all eero routers in one package, with one postage and handling charge. Otherwise, an additional postage and handling charge will apply for each delivery.

3.4 The Equipment price does not include any set up or installation costs.

3.5 Compatibility

If you have purchased broadband equipment from someone other than Mercury, Mercury cannot guarantee that Equipment provided by Mercury will be compatible with your separately purchased device, even if that device is of the same brand.

3.6 eero

eero routers only work with other eero routers. If you have received a free router with your Mercury broadband service that is not an eero router, eero routers will not work with that free router. If you have received a different free router and are on fibre services, you may choose to purchase one or more eero routers to replace your current router.

3.7 TP-Link 5-Port Gigabit Switch

The TP-Link 5-Port Gigabit switch can be connected to your router to enable you to connect additional wired devices via the ethernet ports on the switch. It is compatible with all Mercury free and purchased Equipment. There is a limit of 4 x TP-Link 5-Port Gigabit Switches per customer.

4 PAYMENT OPTIONS

4.1 For the eero router the standard payment method is deferred payment. If you wish to pay for the router by upfront payment, you will need to call us on 0800 10 18 10. You can pay for purchased Equipment other than the eero router with an upfront payment.

4.2 Upfront payment

If you pay for your purchased Equipment with an upfront payment, Mercury will include the charge for the purchased Equipment and applicable postage and handling on your next bill for your Mercury services after your purchased Equipment has been sent. If your fibre broadband services have not yet been connected, the charges for the purchased Equipment will not be included on your bill until after your fibre broadband service has been connected.

4.3 Deferred payment

If you pay for your eero router through deferred payment, you will pay for your eero router over 24 months, in equal interest-free monthly instalments of \$5.00 per month including GST.

4.4 Your monthly payment will be included on your monthly bill for your Mercury services for 24 months. The first monthly charge and any applicable postage and handling charge will be included on your first bill after your eero router is sent and your fibre broadband service is connected (if you are purchasing the eero router prior to your services being connected).

4.5 If you terminate your fibre broadband service with Mercury before you have made all 24 monthly payments, you will need to pay the outstanding balance. Mercury will include the final amount owing on your next bill after you terminate your Mercury fibre broadband services (or your final bill from us, if you have terminated all your services with us).

4.6 There is no interest payable for any overdue monthly payments for your purchased Equipment.

5 eero EQUIPMENT AND eero SECURE

5.1 Activation of eero Equipment

To activate the eero Equipment you have received from Mercury, you need to register your equipment using the eero app. Please see the privacy section below regarding use of your information by eero.

5.2 eero Secure

If you receive an eero router as your free Equipment, or purchase an eero router as purchased Equipment, Mercury may make the "eero Secure" service from eero available to you free of charge while you are using that eero Equipment on Mercury fibre broadband services. However, Mercury will only make eero Secure available to you where we have an agreement in place with eero that allows us to do so. If the eero router is used with a broadband provider other than Mercury, or on Mercury services other than fibre services, eero Secure will also not be available through Mercury.

- 5.3 Mercury may notify you at any time that Mercury is terminating the provision of the eero Secure service to you, or that there are changes to the eero Secure service as advised by eero. Mercury will endeavour to provide you with as much notice as possible of any change to or the termination of eero Secure, but cannot guarantee any minimum notice period.
- 5.4 If Mercury ceases to provide eero Secure, or you move to another broadband provider, you will no longer have access to eero Secure features. To continue leveraging eero Secure features independently of Mercury you may consider subscribing to eero Plus with eero directly.
- 5.5 If you are receiving eero Secure and Mercury changes these Terms that relate to eero Secure, and you reasonably believe that change will be detrimental to you, please contact us.
- 5.6 Details of eero Secure are available at mercury.co.nz/eero. eero Secure is provided by eero. You must register with eero to receive eero Secure.
